LEGENDE

LEGEND | LEGENDA

Material – Es befinden sich ausschließlich 100% spinnfasergefärbte Gewebe in der Kollektion, welche eine höhere UV Beständigkeit aufweisen.
Material – Only 100% spinnfaser-dyed fabrics are in the collection, which have a higher UV resistance.

Materiale – La collezione comprende esclusivamente tessuti colorati in fibra al 100% con un'elevata resistenza ai raggi UV.

Solare Absorbition – Je höher der angegebene Wert, umso höher ist die Absorption der Sonnenstrahlung vom Gewebe.

Solar absorption – The higher the indicated value, the higher the absorption of solar radiation by the fabric.

Assorbimento solare – Più alto è il valore indicato, maggiore è l'assorbimento dei raggi solari sul tessuto.

Solare Reflexion – Je höher der angegebene Wert, umso mehr Sonnenstrahlung wird vom Gewebe reflektiert

Solar reflection – The higher the indicated value, the more solar radiation is reflected by the fabric.

Riflessione solare – Più alto è il valore indicato, maggiore è la riflessione dei raggi solari sul tessuto.

Allwetter – Bedeutet eine erhöhte Wasserdurchlässigkeit von 1 000 mm.
Allwetter – An increased water column of 1000 mm.
Allwetter – Una colonna d'acqua con un'altezza di 1000 mm.

Wassersäule – Gibt die Wasserdurchlässigkeit des Gewebes an. Je höher der Wert, desto dichter das Material.

Water column – Indicates the water permeability of the fabric. The higher the value, the denser the material.

Colonna d'acqua – Indica l'impermeabilità del tessuto. Più alto è il valore, maggiore è l'impermeabilità del tessuto.

Empfohlenes Einfassband – Hierbei handelt es sich um eine Herstellerempfehlung.

Recommended bordering tape – This is a manufacturer's recommendation.

Fettuccia consigliata per il bordo – Si tratta di una raccomandazione del produttore.

FABRIC FINDER

Mithilfe des **FABRIC FINDER** ist die Auswahl des richtigen Gewebes für Architekten, Planer und Endkunden massiv erleichtert und wird zum Kinderspiel. Das neue Tool ist die optimale Orientierungshilfe in Hinblick auf Faktoren wie Farbe, Gewebesart, Brandklasse, Reiß- und Zugfestigkeit, solarer Transmission, Reflexion und Absorption, Material, Hersteller und vielem mehr. Der User kann sämtliche Parameter für ein optimales Suchergebnis individuell einstellen und findet die zur Auswahl stehenden Gewebe, die seine Anforderungen erfüllen und die von HELLA zu textilen Sonnenschutzprodukten verarbeitet werden können.

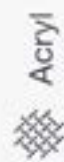

With the help of the **FABRIC FINDER**, the selection of the right fabric is massively facilitated for architects, planners and end customers and becomes child's play. The new tool is an optimum guideline in regard to factors such as colour, type of fabric, fire class, tear and tensile strength, solar transmission, reflection and absorption, material, manufacturer and a lot more. The user may enter all parameters individually for an optimum result and is able to find the fabrics available for his or her requests and which ones can be manufactured into textile sun protection products by HELLA.

Con l'aiuto del **FABRIC FINDER** la scelta del tessuto giusto da parte di architetti, progettisti e clienti finali viene notevolmente semplificata e diviene un gioco da ragazzi. Il nuovo strumento è il contributo ottimale per orientarsi tra fattori come colore, tipo di tessuto, classe di infiammabilità, resistenza agli strappi e alla trazione, trasmissione solare, riflessione e assorbimento, materiali, produttore e molti altri. L'utente può impostare in modo personalizzato tutti i parametri per ottimizzare il risultato della ricerca, individuando i tessuti della collezione che soddisfano le sue esigenze e che possono essere lavorati da HELLA per divenire prodotti per la protezione solare.
